KEYePER

Updates and sales of KEYePER will be suspended from March 1 2018.

Subscription validity will not be checked for KEYePERs already purchased, but it will no longer be possible to update the KEYePERs themselves, and they will remain “frozen” at the last update, which took place in February.

As for the Repair Manuals, only online access will be available after 1 March 2018.

At the same time, the possibility to purchase offline documentation will also disappear.
