

FIAT ePER

Hi,

I am the owner of AR Giulia Q from X.2017r production. When I enter VIN number in KEYePER service, I have information that " No vehicle found for the requested parameters ". Why is it like that? My friends after entering their vin numbers have full information about their cars.

**Regards
Marcin**

Admin:
Greetings,

thank u for contacting us

we tested with VIN number ZARxxxxxxxx, made on 9.1.2017 and it is working. If yours model is made on X of month it is should show the information.

Please, check it on page <http://keyeper.pekidi.com>

Hi, my Vin steel not working : ZARxxxxxxxx

Admin:
Hi,

very interesting

We put the vin number on two different epER that we have, and neither is not showing any information. In near future FIAT group should refresh FIAT ePER database for end users. When will this happend, sorry but we do not know. Until now, we just wait for it.

regards
Ala Fiat Klub Team Slovenia

Hello, did this happen before? Am I the first case?
Regards

Admin:
Hi

FIAT ePER

no no, you are not the first example, every day are made xxxx number of vehicles.
Database for official fiat shops are regularly updated.

Ok. I'll waiting :) I hope it will be soon :)
Regards
